Course Description

This 16-hour course is designed to equip responders with necessary skills to effectively manage propane emergencies, covering tactical strategies, container evaluation, leak control techniques, and flaring operations. Each participant will be provided with PropaneIQ Smart Charts containing diagrams of various propane vessels and corresponding countermeasures for potential leak points.

Student Criteria:

This course is open to all Emergency Management, Rescue, Environmental Response, Public Health, Fire, Emergency Medical, Law Enforcement personnel or any organization having responsibility for responding to a hazardous materials incident.

Special Notes:

Advance student registration is REQUIRED and must be received by June 1, 2026, to participate in this course. **MAXIMUM number of students seats is 30**. Meals Lodging, and travel arrangements/expenses are the responsibility of the student and will not be reimbursed by KYEM unless otherwise noted.

Registration:

Registration application for the course can be completed using the following link to the KYEM website: https://forms.logiforms.com/formdata/user_forms/25701_7726379/94173. **Students will be notified if the course is canceled. For this reason, it is imperative that you provide accurate contact information.**
